#### Introduction

This *Digest* has been prepared by the Central Statistical Office in collaboration with the Statistics Divisions of Government Departments.

The name of the department or organisation providing the statistics is shown under each table. Some of the statistics provided by departments are actually collected by other organisations such as nationalised boards and trade associations. The assistance provided by these organisations, too numerous to mention individually, is gratefully acknowledged.

The figures in the *Digest* are mainly totals for calendar months or monthly averages.

Some of the figures included in this *Digest* are provisional and may be revised in later issues.

#### Definitions

A Supplement of Definitions and Explanatory Notes, published with the April issue, gives detailed definitions of all the terms and units used in the Digest. The following general definitions should be noted in using the Digest:

Area covered. Except where otherwise stated, all statistics relate to the United Kingdom of Great Britain and Northern Ireland.

Consumption and stocks. The terms 'consumption', 'disposals' and 'stocks' are defined in detail in the Supplement to the Digest. Figures of consumption and stocks are seasonal and should be used with caution. The stocks figures given may often relate to only part of the total stocks in the country.

External trade. Owing to differences in coverage and timing, figures of imports and exports are not always comparable with those for production, consumption and stocks.

#### Symbols and conventions used

Symbols. The following symbols are used throughout:

- .. not available
- nil or less than half the final digit shown
- \* average (or total) of five weeks

Change of basis. A line drawn across a column between two consecutive figures indicates that the figures above and below the line have been compiled on different bases and are not strictly comparable. In each case a footnote explains the difference.

Rounding of figures. In tables where figures have been rounded to the nearest final digit, there may be a slight discrepancy between the sum of the constituent items and the total as shown.

Provisional data. Some figures in *Monthly Digest* are provisional and may be subject to revision in later issues. This applies particularly to data for the most recent time periods.

#### Recent data

Figures for recent periods in a number of tables have been affected by the dispute in the coal mining industry and should be used with caution.

# Contents

1	National income and expenditure	Page
1.1	Expenditure on the gross domestic product	4
1.2	Factor incomes in the gross national product	6
1.3	Index numbers of output at constant factor cost	7
1.4	Personal income, expenditure and saving	8
1.5	Consumers' expenditure	9
1.6	Value of physical increase in stocks and work in progress	10
1.7	Gross domestic fixed capital formation	11
1.8	Fixed capital expenditure in manufacturing industry (revised definition)	13
1.9	Fixed capital expenditure of the construction, distribution, road transport and	
	financial sectors (plus shipping)	15
	Bendales and deleterated	
2.1	Population and vital statistics De facto or home population	16
2.2	Age distribution of the population	16
2.3-2.4	Births and marriages and deaths registered	17
3	Employment	
3.1	Distribution of working population	18
3.2	Employees in employment: all industries	18
3.3	Employees in employment: production industries	19
3.4	Civil Service staff: analysis by ministerial responsibilities	20
3.5	UK Service personnel, intake, outflow and strengths	21
3.6	Local authority manpower	22
3.7	Numbers employed in agriculture	23
3.8	Overtime and short-time worked by operatives in manufacturing industries	24
3.9-3.12	Unemployed	24
3.13	Notified vacancies remaining unfilled	27
3.14	Industrial stoppages	28
4	Social services	
4.1	National insurance and child benefit	29
4.2	Family income supplement	29
4.3	Supplementary benefits: pensions and allowances	30
4.4	Family practitioner services	30
5	Law enforcement	
5.1	Notifiable offences recorded by the police – England and Wales	31
5.2	Crimes and offences recorded by the police - Scotland	31
6	Agriculture and food	
6.1	Agricultural land: area and harvest	32
6.2-6.3	Livestock, pigs and poultry on agricultural holdings	33
6.4-6.12	Production, disposals and stocks of principal foods and feedingstuffs	35
6.13	Tobacco products	40
6.14	Alcoholic drinks	41
7	Draduction autnut and costs	
7.1	Production, output and costs Output of the production industries (revised definition)	42
7.2	Employment and output per head	47
7.3	Wages and salaries per unit of output and labour productivity in	47
1.3	manufacturing industries (revised definition)	48
7.4	Total home costs and labour costs per unit of output	48
8.1-8.2	Inland energy consumption: primary fuel input	49
8.3	Supply and use of fuels	50
8.4	Coal supply and colliery manpower and productivity at NCB mines	52
8.5	Coal consumption and stocks	52
8.6	Gas: sources of supply and send-out	53
8.7	Fuel used and electricity generated by the public supply system	53
8.8	Sales of gas and electricity	54
8.9	Plant capacity of public electricity supply industry	54
3.10-8.11	Petroleum and petroleum products	55
9	Chemicals	
9.1	Fertilisers and other miscellaneous products	56
9.2	Sulphur and sulphuric acid	57
9.3	Dyestuffs and pigments: paint and varnish	58
9.4	Synthetic resins and plastics materials	59
9.5	Production of organic chemicals	60
10	Metals, engineering and vehicles	
10.1-10.2	Iron and steel	61
10.3-10.4	Non-ferrous metals	62
10.5	Engineering and allied products: sales of UK manufactured goods and work	63
10.6	Mechanical, instrument and electrical engineering industries: volume index	
	of sales	64

10 10.7-10.8	Metals, engineering and vehicles (continued) Mechanical, instrument and electrical engineering industries: volume index numbers	Page
	of orders on hand and net new orders	65
10.9-10.10	Vehicles	66
10.11	Merchant shipbuilding	67
11	Textiles and other manufactures	
11.1-11.3	Textiles	68
11.4-11.5	Hosiery and footwear	69
11.6-11.9	Timber and paper	70
1.10-11.12	Rubber and other manufactures	73
12	Construction	
12.1-12.2	Constructional work: output and new orders	75
12.3	Building materials and components	76
12.4	Permanent housing	77
13	Transport	
13.1-13.8	Road and rail transport	78
13.9	Civil aviation	82
13.10	Merchant shipping	84
13.11-13.12	Passenger movement by sea and air	85
14	Retailing	
14.1	Index numbers of retail sales in Great Britain	87
14.2	Index numbers of retail sales in Great Britain and retail stocks in the United Kingdom	87
15	External trade	
15.1-15.3	Analysis by commodity classes	89
15.4-15.6	Analysis by areas and countries	94
15.7-15.9	Export and import volume and unit value index numbers	98
15.10	Import penetration and export sales ratios for products of manufacturing industry	101

3rd quarter											

Equals total final expenditure on goods and services at market prices less imports of goods and services.
 Equals gross domestic product at market prices less taxes on expenditure plus subsidies.
 Estimates of the gross domestic product at constant factor cost based on statistics of output are given in Table 1.3.

<sup>4.</sup> This represents taxes on expenditure less subsidies valued at constant rates.

Estimates of the gross domestic product obtained from statistics of expenditure are given in Table 1.1.
 Revised definition comprising Divisions 1 to 5 of the Standard Industrial Classification Revised 1980. Any differences between this column and the data in Table 7.1 arise because the latter may be based on more recent information.

15 1.

Before providing for depreciation and stock appreciation.
 Equals total personal income before tax less payments of taxes on income, national insurance, etc. contributions, and net transfers abroad.

<sup>3.</sup> Before providing for depreciation, stock appreciation and additions to tax reserves.

4. This table is revised and brought up to date in the January, April, July and October issues. In the March, June, September and December issues Table 1.5 may show more up-to-date figures for consumers' expenditure than those shown here.

Personal saving as a percentage of total personal disposable income.
 Personal disposable income revalued by the implied consumers' expenditure deflator (1980=100).

Including purchases less sales of land and existing buildings.
 Including transfer costs of land and buildings.
 In this series capital formation in imported ships is included at the time of delivery instead of when the expenditure takes place. See also footnote 1. to Table 1.9.
 Covers agriculture, forestry and fishing, construction and other service industries.

 The working population consists of the employed labour force and the unemployed (claimants); the employed labour force includes employers, self-employed and HM Forces as well as employees in employment.

From April 1983, the figures of unemployment reflect the effects of the provisions in the Budget for some men aged 60 and over who no longer have to sign at an unemployment office.
 Estimates of employees in employment from December 1981 include an allowance for underestimation.

Estimates of the self-employed have been updated to 1983 and assume that the rate of increase between 1981 and 1983 has continued subsequently. See article on page 319 of Employment Gazette, July 1984.

4. HM Forces figures, provided by the Ministry of Defence represent the total number of UK service

personnel, male and female, in HM Regular Forces, wherever serving and including those on release leave. The numbers are not subject to seasonal adjustment.

Note: Because the figures have been rounded independently totals may differ from the sum of the components, also the totals include some employees (some 3300 in 1975, 8700 in 1976 and 1400 in 1977)

Components, also the totals include some employees lattre some whose industrial classification could not be ascertained.

1. Excluding private domestic service.

2. Includes Divisions 1–5 of the Standard Industrial

Classification 1980.

3. The estimates for agriculture are taken from the censuses of agriculture and exclude a small number of employees of agricultural machinery contractors.

4. Excluding members of HM Forces.

5. See footnote 2 to table 3.3.

comparisons of quarterly or annual intakes.

2. Some personnel have a liability for Reserve service. The figures include deaths.

3. The differences between strengths at successive dates may not match the intake and outflow figures for corresponding periods because of delays in recording transfers between the Services and similar occurrences.

Figures are based on surveys undertaken on behalf of central and local government by the Local Authorities' Conditions of Service Advisory Board and the National Joint Council for Local Authority Services (Scottish Councils).
 Based on following factors to convert part-time employees to approximate full-time equivalents: for teachers and lecturers in further education, 0.11; teachers in primary and secondary education and all other non-manual employees, 0.53; manual employees, 0.41.

3. Provisional figures.
4. Including central services departments (e.g. engineers and treasurers) and all services not shown separately.
5. Includes civilian employees of police forces, traffic wardens and police cadets.

From October 1979 the figures are affected by the introduction of fortnightly payment of benefit.
 The recorded unemployment figures for July to October 1981 are overstated by about 20 000 (net) as a result of industrial action at benefit offices. The seasonally adjusted total for the United Kingdom has been reduced to allow for this. No adjustment has been made to other unemployment figures.
 New basis (claimants).
 4. See footnote 2 to table 3.10.

Sources: Department of Employment Department of Economic Development (Northern Ireland)

Percentage rates have been calculated by expressing the total numbers unemployed as percentages of the numbers of employees (employed and unemployed) at the appropriate mid-year.
 From April 1 1983, figures are affected by the 1983 Budget provision for some men aged 60 and over who no longer have to sign on at an unemployment benefit office.
 The seasonally adjusted series has been calculated as described in the Employment Gazette, December 1982. From October 1979 the figures are affected by the introduction of fortnightly payment of benefit. The seasonally adjusted figures have been adjusted to take account of this.
 The recorded unemployment figures for July to October 1981 are overstated by about 20 000 (net) as a result of industrial action at benefit offices. The seasonally adjusted total for the United Kingdom has been reduced to allow for this. No adjustment has been made to other unemployment figures.

The figures represent only the number of vacancies notified to jobcentres and careers offices by employers and remaining unfilled on the day of the count. It is estimated from a survey carried out in April—June 1977 that vacancies notified to jobcentres are about one-third of all vacancies in the country as a whole.

2. Vacancies notified to jobcentres could include some that are suitable for young persons.

Similarly vacancies notified to careers officers could include some for adults. Because of possible duplication the two series should not be added together.

Excludes stoppages involving fewer than 10 workers or lasting less than one day except any in which the total number of working days lost exceeded 100. There may be some under-recording of small or short stoppages; this would have much more effect on the total stoppages than on working days lost. The figures for 1984 are provisional.

2. Where stoppages extend over more than one month, the workers involved are counted in the month in which they first participated.

3. The figures of working days lost relate to the total working days lost within each of the periods shown as a result of stoppages in progress in that period, whether the stoppages began in that period or earlier.

1. Includes overseas cases.

Yearly figures are averages of quarterly figures. Quarterly figures relate to the Thursday following the first Monday in the month.

Source: Department of Health and Social Security

3. Excluding claims made under the emergency benefit procedure. Figures for individual months are averages of the four or five weeks starting on the first Monday of each month. 4. Figures for individual months are averages of the four or five weeks ending on the last Tuesday of each month. 5. Excluding pensioners in receipt of non-contributory retirement pension awarded under National Insurance Acts 1970 and 1971, and cases where graduated pension only was awarded. 6. Including a diminishing number of widows with pensions of £1-50 a week derived from the old Contributory Pensions Acts. 7. Famil allowance up to 31 March 1977: Child benefit from 1 April 1977. 8. Data not available due to industrial action. 9. Provisional.

Data on minor holdings in England and Wales are included in the above figures. For fuller details refer to the Supplement of Definitions.

Sources: Agricultural Departments

the Supplement of Definitions.

2. UK gross production in calendar years.

3. Provisional.

4. Production figures for wheat and barley have been rounded to the nearest 10,000; mixed corn, oil seed rape, hops and beans for stock feeding to the nearest 1,000 and other agricultural crops to the nearest 5,000.

5. Included with turnips and swedes for stockfeeding in Scotland and Northern Ireland.

6. From 1980 onwards estimated quantity harvested is for England and Wales only.

7. Weight in pods.

8. Shelled.

9. From 1980 included with grasses under five years old and five years old and over.

Based on returns from Potato Marketing Board and Ministry of Agriculture, Northern Ireland.
 Includes movements through recorded sources and an allowance for

unrecorded sales. Potatoes processed for export are excluded.

3. From January 1984, total UK consumption excluding use by non-food industries.

4. From January 1984, recorded stocks of imported and home-produced supplies of raw and refined sugar.

5. 53-week period for sugar, syrups and glucose.

6. Estimated figures.

7. From January 1984, total UK consumption by food and other industries plus exports (including sugar used in manufactured goods).

8. Estimates based on stock returns for 15th January.

9. Changes in stocks differ from movements into human consumption due to wastage when dressing potatoes on producers/merchants' premises.

Source: H.M. Customs and Excise

The figures relating to both home production and releases for home consumption take account of brewing at high gravity with the addition of some brewing liquor after fermentation.
 Percentage alcohol by volume.
 Before April 1983, the figures represent quantities of all mature home-produced spirits.
 Includes imported spirits.
 A small quantity of molasses spirit is used in beverage spirit production. See explanatory notes to Section 9 in the Supplement of Definitions and Explanatory Notes for this publication.
 Provisional.

Output per head is the ratio of the output index numbers published in Table 7.1 and the employed labour force. A monthly series for total manufacturing industries is presented in Table 7.3.
 Based on the output measure of Gross Domestic Product.
 Revised Definition.

1. Consumption by fuel producers plus disposals to final users plus (for annual figures only) net foreign trade and stock change in other solid fuels. See also footnotes 6. and 7. to Table 8.5.

2. Inland deliveries for energy use plus refinery fuel and losses minus the differences between deliveries to and actual consumption at power stations and gas works.

3. Including non-energy use and excluding gas flared or re-injected.

4. Also temperature corrected.

5. Coal data for 1983 have been adjusted, for the purpose of comparison with 1984, to take account of calendar differences between 1983 and 1984.

6. Provisional.

### Inland energy consumption: primary fuel input basis

Million tonnes of oil or oil equivalent

Including an estimate for slurry, etc., recovered and disposed of otherwise than by the National Coal Board.
 As recorded in the Overseas Trade Statistics of the United Kingdom.

3. Excluding capital working and tip coal.

Executing Capital Working and up code.
 New series. For further explanation and definitions, see *Energy Trends*, May 1979.
 Later figures are a new series. For further explanation and definitions, see *Energy Trends*, May 1980.

1. The term indigenous is used in this table for convenience to include oil from the UK Continental Shelf as well as the small amounts produced on the mainland. 2. Crude oil plus condensates and petroleum gases derived at onshore treatment plants. 3. Includes process (partly refined) oils. 4. Includes condensate for distillation. 5. Mainly recycled products. 6. Foreign trade as recorded by the petroleum industry and may differ from figures published in Overseas Trade Statistics. 7. Mainly process oils but may include re-exports of crude oil. 8. International marine hybrates. 9. Provisional of the petroleum industry and may differ from figures as the provisional of the petroleum industry and may differ from figures published in Overseas Trade Statistics. 7. Mainly process oils but may include re-exports of the petroleum gases derived at onshore treatment plants. 3. Includes process (partly refined) oils. 4. Includes condensate for distillation. 5. Mainly process oils but may include re-exports of the petroleum gases derived at onshore treatment plants. 3. Includes process (partly refined) oils. 4. Includes condensate for distillation. 5. Mainly process oils but may include re-exports of the petroleum industry and may differ from figures published in Overseas Trade Statistics. 7. Mainly process oils but may include re-exports of the petroleum figures and petroleum figures are provided by the petroleum figures and petroleum figures are provided from the petroleum figures and petroleum figures are provided from the petroleum figures are provided from the petroleum figures and petroleum figures are provided from the petroleum figures and petroleum figures are provided from the petroleum figures and petroleum figures are provided from the petroleum figures are provided from the petroleum figures and petroleum figures are provided from the petroleum figures are Source: Department of Energy 8. International marine bunkers. 9. Provisional.

Nutrient content.
 2. Total weight of compound fertilisers.
 3. Industrial ethyl alcohol is distilled from molasses or derived from other processes: the current usings of molasses spirit in beverage spirit production are believed to be comparable with the usings in the preceding financial year—see explanatory notes in the Supplement of Definitions and Explanatory Notes.
 4. Figures relate to sales by manufacturers in the United Kingdom who are classified to AH 2581 (Soap and synthetic detergents) previously MLH 275, and who from the first quarter 1981 employ 50 or more, replacing the previous employment level of 25. From the first quarter 1980 figures exclude sales of household cleaning liquid detergent and from the first quarter 1981 sales of paste synthetic detergents.

	101.8	
	105.3	
	111.0	
and quarter 170.2	108.1	
or denoted the second		
4th quarter 158.7 14.3 48.5	112.1	
1984 1st quarter 166.3 14.1 46.4	114.6	
2nd quarter 171.9 14.4 44.4	110.9	

1. The figures from the 1st quarter 1981 are based on a higher employment level resulting in a slight decrease in the figures.
2. Figures from 1st quarter 1983 for products of condensation, polycondensation and polyaddition exclude polyamides and silicones. A comparable figure for 4th quarter 1982 would be 132.4.
3. Figures from 1st quarter 1983 for cellulosics and other plastics and modified natural resins consist only of regenerated cellulose film; an equivalent figure for 4th quarter 1982 would be 13.5.
4. From 2nd quarter 1983, figures for intermediate forms between the resin and semi-fabricated stages exclude mouldings and exclusion compounds of phenolics. A comparable figure for 1st quarter 1983 would be 55.9.

Note: More detailed information can be found in the PQ series of Business Monitors for the activities listed above.

1. These figures represent the total sales of principal products of each activity, excluding waste products and work done. Estimates of the sales of principal products of establishments falling below the employment threshold of the Quarterly Sales Inquiries are included.

2. Provisional.

3. Excluding ferrous and non-ferrous metal foundries AH 3111/2, and heat and surface

treatment of metals, including sintering AH 3138.

4. Excluding process engineering contractors AH 3246.

5. Excluding electrical equipment installation AH 3480.

6. Excluding shipbuilding and repairing AH 3610, and cycles and motor cycles, AH 3633/4.

Includes naval vessels registered as merchant ships.
 Gross tonnage (100 cubic feet per g.t.) is the total volume of all the enclosed spaces of a vessel.
 The total tonnage specified on ordering vessels differs slightly from total actual measured tonnage on

completion.

4. Vessels are shown for export if they are for other than UK registration.

5. Modifications include alterations of 500 gross tons or more to the tonnage and the country of registration of vessels already on order.

6. Registration moved from UK to overseas.

7. Modifications and cancellations equal new orders for the period.

8. Modifications and cancellations exceed new orders for the period.

Source: Department of the Environment Scottish Development Department Department of the Environment (Northern Ireland)

Including the Commission for the New Towns and new town development corporations: in Scotland the Scotlish Special Housing Association and, in Northern Ireland, the Northern Ireland Housing Executive.
 Housing associations, other than the Scotlish Special Housing Association and local authorities acting other than under Housing Act powers and government departments.
 Owing to the re-organisation of Scotlish local government in May 1975, the permanent house building figures for Scotland are presently subject to some distortion.
 Under construction figures are not strictly comparable with those for earlier periods.
 Provisional.

1. Excludes vehicles used by the armed forces. Prior to Octol er 1982 estimates of the total of vehicles within the Private and light goods taxation class, and within the other goods class were estimated by assuming that all goods vehicles less than 1.5 tons unladen weight would have been registered in the Private and Light Goods class

1. Between 1974 and 1978 the census methodology has been changing and figures are not strictly comparable. From 1978 figures are taken at 31 December. For details of change, see Supplement of Definitions and Explanatory Notes for this publication.

2. Includes agricultural tractors, combine harvesters, mowing machines, digging machines, mobile cranes, works trucks, three wheelers, pedestrian-controlled vehicles and showmen's haulage.

3. Includes personal and direct export vehicles.

From 1979 includes exempt tax classes 61 and 62 not previously included.
 Private cars and vans includes 45,000 light goods vehicles under 1 525 kg unladen weight which under the taxation system pre-October 1982 would have been included in Goods vehicles.

1. All indices have been revised.

2. Not over 30 cwt. unladen weight.
3. Includes vehicles with drawbar trailers.
4. The figures for road goods transport are estimated from a continuing sample enquiry.

5. The quarterly figures relate to 13-week periods and not three calendar months.
6. Revised to exclude estimates of work done by vehicles under 3.5 tonnes gross vehicle weight.
7. Estimated for consistency with previous years.

The four-weekly averages for each year are computed from calendar year totals.
 Excludes journeys by Motorail services.
 On annual season tickets, journeys are estimated at the rate of 480 per annum; on other season tickets, 540 per annum.
 Journeys on all season tickets are estimated at the rate of 600 per annum.
 British Rail figures provisional.
 Beginning with the 4-week period ended April 21 the date for London Transport actually relates to the 4-week period ending 7 days later.

19

Scheduled services only. All kilometre statistics are based on standard (Great Circle) distance.
 Slight discrepancies between certain totals and the sum of their constituent items are attributable to the rounding of figures.
 Including weight of vehicles uplifted on vehicle ferry services, excess baggage and diplomatic bags.

13.9 UK airlines¹
Tonne-kilometres and seat kilometres used

Note: EC=European Community.

Sources: Department of Transport Civil Aviation Authority

Excluding movement by land across the frontier between the Irish Republic and Northern Ireland, passengers travelling between the Channel Islands and Great Britain, passengers carried in aircraft chartered by British government departments and as far as possible, passengers travelling by sea on day trips and HM and other Armed Forces travelling in the course of their duties.
 Including passengers on pleasure cruises beginning and/or ending at UK seaports.
 To avoid disclosure the figure for the first quarter of each year is included with that for the second quarter.
 The figures do not include oil rigs.

#### UK passenger movement by sea and air Analysis by countries of landing and of embarkation

Note: The statistics are on an overseas trade statistics basis (see footnote 1. to Table 15.7).

These are defined as ships, North Sea installations (together comprising SITC (Rev 2)(793), aircraft (792) precious stones (667) and silver (681.1)).
 Based on the Classification by Broad Economic Categories (BEC) published by the United Nations.

Note: The statistics are on an overseas trade statistics basis (See footnote 1 to Table 15.7) to which a number of changes have been made to the coverage, with effect from 1 January 1981. The changes, which are described below, were previously taken into account by means of balance of payments adjustments.

Source: Department of Trade and Industry

a) Trade in precious stones now excludes consignments which cross national boundaries on a temporary basis only, i.e. for valuation or for exhibition, previously, these were included in the Overseas Trade
Statistics figures each time they arrived or left the United Kingdom.
b) Trade in secondhand aircraft is excluded where the aircraft are being imported or exported solely for

the purpose of repair or modification, but the value of the work done in undertaking the repair or modification is included.
c) Certain atomic energy materials previously excluded are now included.
d) Gold bullion purchased as a commodity by the general public is included for the first time.

1. The numbers on the left hand side of the table refer to the Section and Division code numbers of the Standard International Trade Classification, Revision 2.

Statistics of visible trade on a balance of payments basis (shown in Table 16.1) are obtained by making certain
adjustments in respect of valuation and coverage to the statistics recorded in the Overseas Trade Statistics.
These adjustments are described in detail in United Kingdom Balance of Payments 1983 Edition.

Note: The statistics are on an overseas trade statistics basis (see footnote 1 to Table 15.7).

These are defined as ships, North Sea installations (together comprising SITC (Rev 2) (793), aircraft (792), precious stones (667) and silver (6811)).
 Based on the Classification by Broad Economic Categories, (BEC) published by the United Nations.

### 15.10 Import penetration and export sales ratios for products of manufacturing industry<sup>1 2</sup>

<sup>1.</sup> The ratios were first introduced in an article in the August 1977 edition of Economic Trends 'The Home and Export Performance of United Kingdom Industries' which described the conceptual and methodological problems involved in measuring such variables as 'Import Penetration'. The latest ratios for the full detail within manufacturing (over 200 AHs) are shown in Business Monitor MO12 Import Penetration and Export Sales for Manufacturing Industry. An article in Economic Trends giving a longer back run of the ratios on a Standard

manufacturing (over 200 AHs) are shown in Business Monitor MU12 import renetration and Export Sales for Manufacturing Industry. An article in Economic Trends giving a longer back run of the ratios on a Standard Industrial Classification 1990 basis is planned for release at a later date.

2. The calculation of the ratios is inappropriate for certain industries. In such cases, and where suitable data are not available, the industry has been omitted from the analysis. The Activity Headings concerned are: AH2247.2 Precious metals, AH 2396(pt) Unworked precious stones, AH2436 Ready-mixed concrete, AH3138 Heat and surface treatment of metals, AH3246 Process engineering contractors, AH3480 Electrical equipment installation, AH4121 Slaughterhouses, AH4370 Textile finishing, AH4560 Fur goods, AH4672 Shop and office fitting, AH4910 Jewellery and coins, AH4930 Photographic and cinematographic processing laboratories.

Assets: increase - / decrease +. Liabilities: increase + / decrease -. Excluding official financing.

Source: Central Statistical Office

1. Assets: increase – / decrease +. Liabilities: increase + / decrease –. Excluding official financing.

2. Excluding trade credit between related firms (part of United Kingdom and overseas private investment).

3. Excluding changes in levels resulting from changes in sterling valuation: see notes on pages 40 and 52 of UK Balance of Payments 1984 Edition.

4. Prior to 1982 includes transactions by 'other financial institutions'. For 1982 onwards these data relate only to transactions reported by UK monetary sector institutions. Transactions by 'other financial institutions' are included within 'other external borrowing or lending'.

5. Sterling reserves of overseas countries and international organisations, other than the IMF, as reported by UK banks, etc. in the United Kingdom.

6. Excluding credit for UK exports.

7. From 1982 onwards included transactions by 'other financial institutions' (see footnote 4).

The estimate included for the latest quarter excludes a substantial part of the private sector borrowing from and lending to banks, etc., overseas.

 Until end-March 1979 convertible currencies are valued in dollars at middle or central rates; Special Drawing Rights are valued at SDR1=\$1-20635; gold is valued at \$42-2222 per fine ounce. From end-March 1979 the rates at which the reserves are valued in dollars are revised annually. Convertible currencies and SDRs are valued Sources: Central Statistical Office HM Treasury

at the average of the middle market closing rates in the three months to end-March, or (from end-March
1980) at their actual dollar value on the last working day of March, whichever is the lower. Gold is valued at the average of the London fixing prices for the three
months up to end-March less a 25 per cent discount or (from end-March 1980) at 75 per cent of its final fixing price, on the last working day of March whichever is
lower. Data denominated or expressed in dollars are converted to sterling at end-period middle-market rates. 2. Drawings from the IMF, excluding
interest and charges and net of repayments to and drawings from the IMF by other countries in sterling. 3. From July 1979 reserve holdings include European
Currency Units acquired from swaps with the European Monetary Co-operation Fund. As shown above, these are included within convertible currencies and are
valued at the average of the \$/ECU or \$/European Unit of Account Exchange rates in the 3 months to end-March, or at their actual dollar value on the last working
day of March, whichever is lower.

For further details see Financial Statistics, Tables 3.9, 6.1, 7.1, 7.3, 7.4, 7.8, 9.3, 12.1.
 Total administered by the Department for National Savings.
 Monthly figures relate to banking months.
 The statistical definition of the banking sector was changed with effect from 16 November 1981 to include all recognised banks, licensed deposit taking institutions and the Trustee Savings Banks; it will henceforth be called the Monetary Sector. For further details see Bank of England Quarterly Bulletin for Sustambas 1981. for September 1981.

1. The figures for M0 are the average levels in the banking months ending in the mid-December dates shown; the figures

Source: Bank of England
for M2 are the levels as at the mid-December dates; the figures for broad money (£M3 and PSL2) are the levels as at 31 December. For broad money, the figures
for end-December 1981 show, in the first line, levels on the basis of the old banking sector and in the second line, on the basis of the new monetary sector.
Banking sector levels at end-December 1981 are partly estimated.

2. Changes up to and including the 4th quarter of 1981 in the quarterly series have been calculated on the basis of the old banking sector. After that period changes
have been calculated on the basis of the new monetary sector. Figures for the 4th quarter 1981 are partly estimated.

3. The figures for M0 are the changes between the average levels in the banking months ending in the dates shown. Source: Bank of England

<sup>1.</sup> The Cost of Living Advisory Committee (now renamed the Retail Prices Index Advisory Committee) recommended in 1962 that until a satisfactory index series based on actual prices became available half the expenditure on meals out should continue to be allocated to the food group and the other half spread proportionately over all groups, including the food group. The index for meals out for 16 January 1968 implicit in this recommendation was 121.4. Since January 1968 an index series based on actual prices has been available and indices in this series have been linked with the implicit index for meals out for 16 January 1968, to obtain indices for meals out with 16 January 1962 taken as 100.

Provisional.

1979 1980 1981 1962

Nate: The purpose and methodology of the Tax and price index were described in an article in the August 1979 issue of Economic Trends and in the September Economic Progress Report published by the Treasury. The purpose is to produce a single index which measures changes in both direct taxes (including national insurance contributions) and in retail prices for a representative cross-section of taxpayers. Thus, while the Retail prices index may be used to measure changes in the purchasing power of after-tax income (and of the income of non-taxpayers) the Tax and price index takes account of the fact that taxpayers will have more or less to spend according to changes in direct taxation. The index measures the change in gross taxable income which would maintain after tax income in real terms.

1. These figures reflect the late timing of the 1979 budget.

Index numbers constructed on a net sector basis, i.e. transactions within sector are excluded.
 Index numbers are compiled exclusive of VAT. Revenue duties on cigarettes, tobacco, alcoholic liquor, matches and mechanical lighters are included. Duty on hydrocarbon oils is included in series for materials and fuel purchased by broad sectors of industry but excluded from output price series.
 Provisional.
 For footnotes 4 to 8 see page 116.

Source: Business Statistics Office

Index numbers constructed on a net sector basis, i.e. transactions within sector are excluded.
 Index numbers are compiled exclusive of VAT. Revenue duties on cigarettes, tobecco, alcoholic liquor, matches and machanical lighters are included. Duty on hydrocarbon oils is included in series for materials and fuel purchased by broad sectors of industry but excluded from output price series.
 Provisional.

For footnotes 4 to 8 see page 116.

For footnotes 1 to 3 see page 113.

4. A base weighted (1980 = 100) combination of the separate price indices for contractors' output in the five new work sectors.

5. The index covers only dwellings on which building societies have approved mortages during the period. The cost of land is included.

6. Figures are based on a monthly return covering 90 per cent of building society mortgages.

The figures represent the average earnings, including bonus, overtime, etc., and before deduction of
income tax or insurance contributions, in one week in the month indicated. Administrative and clerical
workers and other salaried persons have been excluded. Certain qualifications including explanations of
the change of definitions are given in a full account of the survey relating to October 1980, published in
the Employment Gazette for March 1981.

England and Wales only.
 Because of a dispute in the steel industry, insufficient information is available to enable a reliable index for 'metal processing and manufacturing' to be calculated, but the best possible estimates have been used in the compilation of the indices for manufacturing and whole economy. The index series for this group has a base of April 1980=100.
 Provisional.

### Average earnings index: all employees: by industry

### **Units of measurement**

7.5

### 1. Common units of measurement and their equivalents

Length		
	1 millimetre (mm)	= 0.039 370 1 inches
1 centimetre (cm)	= 10 millimetres	= 0.393 701 inches
1 metre (m)	= 1,000 millimetres	= 1.093 61 yards
1 kilometre (km)	= 1,000 metres	= 0.621 371 miles
	1 inch (in)	= 25.4 millimetres or 2.54 centimetres
1 foot (ft.)	= 12 inches	= 0.3048 metres
1 yard (yd.)	= 3 feet	= 0.9144 metres
1 mile	= 1,760 yards	= 1.609 34 kilometres
Area		
	1 square centimetre	= 0.16 square inches
1 square metre (m <sup>2</sup> )	= million square millimetres	= 1.195 99 square yards
1 hectare (ha)	= 10,000 square metres	= 2.471 05 acres
1 square kilometre (km²)	= million square metres	= 247.105 acres
	1 square inch (sq. in.)	= 645.16 square millimetres or 6.451 6 square centimetres
1 square foot (sq. ft.)	= 144 square inches	= 0.092 903 0 square metres or 929.030 square centimetres
1 square yard (sq. yd.)	= 9 square feet	= 0.836 127 square metres
1 acre	= 4,840 square yards	= 4,046.86 square metres or 0.404 686 hectares
1 square mile (sq. mile)	= 640 acres	= 2.589 99 square kilometres or 258.99 hectares
Volume		
	1 cubic centimetre (cm <sup>3</sup> )	= 0.061 023 7 cubic inches
1 cubic decimetre (dm³)	= 1,000 cubic centimetres	= 0.035 314 7 cubic feet
1 cubic metre (m³)	= million cubic centimetres	= 1.307 95 cubic yards
	1 cubic foot (cu. ft.)	= 0.028 316 8 cubic metres or 28.316 8 cubic decimetres
1 cubic yard (cu. yd.)	= 27 cubic feet	= 0.764 555 cubic metres
Capacity		
1 litre (l)	<ul> <li>1 cubic decimetre</li> </ul>	= 0.220 0 gallons
1 hectolitre (hl)	= 100 litres	= 22.00 gallons
	1 pint	= 0.568 litres
2 pints	= 1 quart	= 1.137 litres
8 pints	= 1 gallon	= 4.546 09 cubic decimetres or 4.546 litres
36 gallons (gal.)	= 1 bulk barrel	= 1.636 56 hectolitres
Weight		
	1 gram (g)	= 0.035 274 0 ounces
1 kilogram (kg)	= 10 hectograms	= 2.204 62 pounds
1 tonne (t)	= 1,000 kilograms	= 1.102 31 short tons or 0.984 2 long tons
	1 ounce avoirdupois (oz.)	= 28.349 5 grams
1 pound avoirdupois (lb.)	= 16 ounces	= 0.453 592 37 kilograms
1 hundredweight (cwt.)	= 112 pounds	= 50.802 3 kilograms
1 short ton	= 2,000 pounds	= 907.184 74 kilograms or 0.907 184 74 tonnes
1 long ton	= 2,240 pounds	= 1,016.05 kilograms or 1.016 05 tonnes
1 ounce troy	= 480 grains	= 31.1035 grams

Energy	British thermal unit (Btu)	The amount of heat required to raise 1 lb. of water through 1 degree fahrenheit at or near 39.1 degrees fahrenheit					
	Therm	100,000 British thermal units					
	Gigawatt hour (GWh)	106 kilowatt hours	106 kilowatt hours				
	Megawatt (MW)	106 watt					
	Terawatt hour (TWh)	10° kilowatt hours					
Food and drink:	Butter	23,310 litres milk	= 1 tonne butter (average)				
	Cheese	10,070 litres milk	= 1 tonne cheese				
	Condensed milk	2,550 litres milk	= 1 tonne full cream condensed milk				
		2,953 litres skimmed milk	= 1 tonne skimmed condensed milk				
	Milk	1 million litres = 1,030 tonnes					
	Milk powder	8,054 litres milk	= 1 tonne full cream milk powder				
		10,740 litres skimmed milk	<ul> <li>1 tonne skimmed milk powder</li> </ul>				
	Eggs	17,126 eggs	= 1 tonne (approximately)				
	Sugar	100 tons raw sugar	= 95 tonnes refined sugar				
	Beer	1 bulk barrel	= 36 gallons irrespective of gravity				

# Monthly Digest of Statistics

The Monthly Digest of Statistics provides basic information on 20 subjects including population, employment and prices, social services, production and output, energy, engineering, construction, transport, catering, national and overseas finance and the weather.

The *Monthly Digest of Statistics* contains mostly runs of monthly and quarterly estimates for at least two years and annual figures for several more.

Other CSO monthlies are Financial Statistics and Economic Trends

The Monthly Digest Annual Supplement gives definitions and explanatory notes for each section. An index of sources is included.

£6.30 net
